Enclosed for Seattle and Portland is one xerox
copy each of a photo of [redacted]

On 3/6/72, as a result of being contacted on
another investigative matter, [redacted]
[redacted] California, furnished the following
information to SA DONALD R. BELMONT:

When he heard the news of captioned hijacking,
and the fact that it occurred in the Oregon area and the
hijacker used the name COOPER, he immediately thought of
[redacted] who was last known to be
in Portland, Oregon. He has no information that [redacted]
was the hijacker, nor has he any particular reason to
believe [redacted] could be the hijacker; however, the
locality of the hijacking and the same last name, together
with the fact that [redacted] has been treated for a
[redacted] in the past, caused him to wonder
about the possibility.

SUGGESTIONS FROM SEARCH AND RESCUE DOG PERSONNEL FOR EQUIPMENT AND SEARCH TECHNIQUES -

Every searcher to have leather gloves and waterproof shoes
Use toilet paper for marking extremities of each grid and use skirmish line with no more than 5' foot intervals between searchers in heavily wooded areas. Then at extremity of search grid entire line can be swung around using one grid extremity marked by paper as guide for next grid. Paper will disintegrate after short time in elements.

Terrain is very difficult with windfall and alders in profusion in area near point A. Very slow movement of the line is advised with all personnel instructed to look up as they search as well as on ground.

Recommend no more than six hours of search per day. 10 minute breaks every hour and no more than 30 minute break for lunch with field rations.

Recommend supplying each searcher with candy bars on daily basis to give quick pickup and replenish calorie use which is approximately 600 calories per hour in heavy wooded area. It is recommended that FBI supply these items which can be secured wholesale through contact at Longview. *164-81-2535*

Recommend straight line at all times with the entire line stop a suspect area needs intensive search.

Recommend an agent at the extremity of the lines on each side to control speed and line movement. One agent every 10 men for Seattle purposes with no more than 5 foot intervals in heavy wooded area. *OK*

SEARCHED	INDEXED
SERIALIZED	FILED
MAR 13 1972	
FBI - SEATTLE	

Recommend one man on the line have a compass to shoot bearings to keep grid intact.
Recommend several agents behind the skirmish line to insure that line maintains itself straight with no straggling.
It was pointed out that there is heavy concentration of coyotes which gives distinct possibility that if hijacker did hit the ground his body could be completely stripped of flesh and clothing.
In event a man with a dog is required charge is \$175 per day if to be used exclusively on the search.
Suggest if Army is approved that a basic training company in last stages of training be employed due to good physical condition.
Suggest skirmish line have smoke grenades in event one of searchers is injured and evacuation is necessary by helicopter. Will guide evacuation helicopter to scene with no delay.
On steep places encountered these could be skirted and searched with field glasses since in most steep places there is little growth of foliage and trees.

GENERAL INFORMATION RE PROPOSED COMMAND POST & BIVOUAC AREA

From Lake Merwin Park to Point A through Woodland is 20 miles on good roads.

In event it is necessary to cross Lewis River above Lake Merwin a county road crosses at Amboy.

In emergency the road across Yale Dam could be used according to PP & L Company personnel but this is discouraged.

Lake Merwin Park has a double sized vehicle gate which is the only means of entering the Park and Ariel Dam location. This gate could be kept closed with sentry posted to keep out curious and newspaper and other news media.

A comfort station with hot showers is available and will be made available by PP & L and is located directly above the picnic table area.

Two large cooking shelters - each with 12 hot plates and sink with running water. Will be made available for use by PP & L.

A small store which can supply immediate needs for small items of military personnel is located immediately outside the entrance gate to Ariel Dam site.

Large octagonal shaped guard house about 100 yards from gate can be used as command post. Has light, heat and phone can be installed with all maps necessary for search use mounted over windows.

Sufficient gravel roads and black topped area for vehicles to eliminate parking on grass areas and disturbing recreational facilities.

Garbage dump nearby for debris removal.

GENERAL ITEMS RECOMMENDED FOR USE

30 WATT RADIO at Command Post for communication with Bureau cars on roads in search area.

At least 19 walkie talkies on Bureau channel to be used in conjunction with military radios.

One bull horn for briefing purposes.

Rain gear for all agent personnel involved in search

It is suggested that in view of Army troops being used that if occasion presents itself a suggestion should be made that a military helicopter should be standing by at search area to assist in fly over to determine that skirmish line is kept straight and within the specified grid area and to immediately check out suspicious items which cannot be reached from ground.

Weyerhaeuser Company, Longview has advised a helicopter will be available on short notice. Clark County SO has one helicopter pilot on department with almost immediate access to helicopter.

Vancouver PD officer also helicopter pilot with helicopter available on short notice.

A conference was held with the below listed Pacific Power and Light personnel at their corporate headquarters, 920 SW 6th. Street in Portland, Oregon on 3/13/72:

b6
b7C

After discussion [redacted] advised that Lake Merwin Park at Ariel Dam could be used as a command post and bivouac area for Army personnel in the planned ground search. The company will power all cooking units and will further supply power to the octagonal shaped guard house which is to be used for briefing purposes. Further rest rooms will be opened for use and hot showers will be available.

b6
b7C

While an extension phone is available at the guard house it was requested that if a phone is necessary that a separate installation be made to free the Ariel Dam switchboard of excess traffic.

Further it was requested that some type of pass be provided for authorized PP & L personnel at the dam site and from other locations having business at the site to allow free access through gate to Merwin park.

Also it was requested that a liaison officer from the search party handle any contacts with the public or press since PP & L personnel do not desire to become involved in answering inquiries and providing information.

The PP & L group also requested that a letter be directed to [redacted] enclosed in an inner envelope marked Official and Personal setting forth a statement insuring PP & L that no personal liability will attach to PP & L for injuries incurred by Army personnel and Agent personnel. [redacted] assured [redacted] complete cooperation by PP & L in the search matter [redacted] that any unusual requests be cleared through him personally. All PP & L personnel were advised that SAC, Seattle would [redacted] letter outlining items requested within the next two days.

Assistant Director BATES called from Division 6. He said that they had a call from the Public Affairs Officer of the Army.

The Army is sending out to their Public Affairs officers in the field certain questions and answers which they anticipate using in connection with publicity in regard to the search.

Question 1: Is the Army assisting the FBI in its search for a sky jacker? Answer: Yes. At the request of the FBI approximately 200 U. S. Army troops from Ft. Lewis are assisting in the search for a sky jacker, believed to have parachuted in the vicinity of Portland, Oregon, on the 24th of November 1971. There is a possibility this sky jacker could have died in his jump. (The Bureau suggested to the Army that they change Portland to LaCenter, Washington)

Question No. 2 relates purely to the justification for the U. S. Army, which is supposed to be defending this country, being used in a situation like this and in answer to it the Army should feel it is justified since it came at the request of a responsible government agency and is related to their training program.

BATES did not give me this verbatim since we would not be concerned with it.

Item No. 3 is another Army question which raises is such support legal and the Army answer is Yes.

BATES suggests that we make no comment other than to say, Yes, the Army is assisting us in the search and we have no further comment.

At approximately 2:30 PM our time I talked to SA HENRY SCHUTZ from the Bureau.

SCHUTZ requested that I be sure to get word to you that he expects to hear from you tonight to talk over the search situation.

He also advised it will be necessary to get a "good" teletype off to the Bureau tonight relative to the discontinuance of the search for the time being. This teletype should generally point out that the Army has withdrawn its troops, that the search has been arduous and physically exhausting and that the troops are being withdrawn primarily to give them some rest; also in view of the approaching holiday weekend. It should point out that agents have been with the troops throughout the search and that the agents involved also have undergone an arduous and tiring experience and can use rest too. It should point out that UACB agents from the nearby offices at least will be released to return to their offices, and that either the same agents or replacements for them will rejoin the search with the Army troops at whatever time this resumption of the search is established.

HENRY SCHUTZ called from the Bureau at 9:50 A.M. today and advised that in reply to our UACB teletype, agents from neighboring offices can be released at noon today to return. These agents will not be recalled when the search is renewed. The agent personnel who will be reassigned to this search will be from San Francisco and Los Angeles, instead of Butte, Portland, etc. *done*

I told him we had no information on when the search is going to start again. In other words, the date has not been set. There is a staff meeting at Fort Lewis this morning and it is possible they will have an answer before the Army leaves at noon. However, [redacted] had no answer at 10:00 this morning. He indicated that if they return Monday, this will probably mean they will search the southern half only but if they return on Tuesday, it will mean they will search the entire area, with a possible commitment on the troops until 4/21/72. This is conjecture on his part. *done*

[redacted] of the Pacific Power and Light, Portland, should be called concerning extended stay at Lake Merwin Park. *done*

[redacted] cannot make any statement on splitting telephone costs and this will have to be cleared through the Communications Officer at Fort Lewis. If this clearance is obtained, we will have to go through the Portland Office to contact the General Telephone Co. in Gresham, Oregon, about the installation of the WATS line. The [redacted] will call me this weekend if he doesn't know when we leave as to the date the search will start again. *done*

The girl who was found yesterday died of a single stab wound in the heart. She is in her mid-20's and by the coroner's estimate was in the cistern between one month and six weeks. The hands have been packed in formaldehyde and Portland is handling pilot courier delivery to the Bureau.

I told SCHUTZ we would advise the Bureau as soon as we got a new starting date for the search.

[] of the Pacific Power and Light, Portland, should be called concerning extended stay at Lake Merwin Park.

[] cannot make any statement on splitting telephone costs and this will have to be cleared through the Communications Officer at Fort Lewis. If this clearance is obtained, we will have to go through the Portland Office to contact the General Telephone Co. in Gresham, Oregon, about the installation of the WATS line. The [] will call me this weekend if he doesn't know when we leave as to the date the search will start again.

The girl who was found yesterday died of a single stab wound in the heart. She is in her mid-20's and by the coroner's estimate was in the cistern between one month and six weeks. The hands have been packed in formaldehyde and Portland is handling pilot courier delivery to the Bureau.

I told SCHUTZ we would advise the Bureau as soon as we got a new starting date for the search.

A [redacted] Oregon, telephone [redacted] called ASAC PAUL R. BIBLER of this office, at his home on 3/24/72. She stated that she had hiked up into the hills, about 11 miles east of Lebanon, Oregon, on some property owned by Georgia Pacific. As she approached the area where an old mill formerly stood, she saw some fresh cut daffodils. Subsequently she found a place where a creek had been dammed and a very small tent had been erected, partially hidden by some cedar trees. She observed a sleeping bag and a three pound coffee can and got the impression that this camp had been there for some time. She said the area is not a camp site and no one should be camping there and she thought of the fugitive in this case.

This confirms our telephone conversation this date.

At approximately 12:05 p.m. this date the writer received a telephone call in the Spokane RA from a young man who refused to reveal his identity but who advised as follows:

He first wanted to know if there is a reward for the hijack money. He said he can take us to it and even to the room next to where it is maintained.. He said he is concerned about prosecution himself as an accessory or having knowledge. He has a bad record. He was in jail when the hijacking took place. He said about 95% of the money is available but he could not tell me how much money in dollars is involved which might indicate he does not know how much was paid in ransom. He wants guarantee of non-prosecution and no publicity. He said the money is not in Spokane and not in this State. He said he is interested in "hard cash" and wants to know how much he can get.

The caller sounded coherent and clear and intelligent. He was advised that no figure of reward could be told to him now but that if he assisted in this matter he would be reasonably and profitably compensated.

Later this afternoon, the writer was informed by [redacted] the "Spokane Daily Chronicle" that at approximately 12:30 p.m. [redacted] of the "Chronicle" received a phone call from a young man who apparently is the same person that called the writer.

Re Los Angeles letter to Seattle, 3/20/72.

Re Suspect [REDACTED]

Referenced Los Angeles letter indicates that a previous letter was written by this unknown individual on 2/24/72 with identification of a U.S. \$1 bill, Serial Number [REDACTED]. For the information of Seattle and Los Angeles, this letter was received by San Francisco and the unknown letter writer described the look alike of D. B. COOPER as living at [REDACTED] in San Francisco and being about 45 years of age, 160 lbs., 5'7", of [REDACTED]

From this description, [REDACTED] was located and interviewed on 3/2/72 at [REDACTED] San Francisco, and was eliminated as a suspect since he is 5'6", 155 lbs., and was almost completely bald with a few wisps of blond hair.

Although he did not recall his whereabouts on 11/24/71, his description does not in anyway match that of the hijacker of captioned plane. Unless advised to the contrary by Seattle, no further investigation concerning Suspect [REDACTED] is being conducted at San Francisco.

*Parachute found near
Reno, Nevada*

At 6:15 PM, 4/8/72, SA [REDACTED] Las Vegas FBI, advised by telephone that a Deputy Sheriff near Reno, Nevada, had found a parachute on the outskirts of Reno and had advised the SRA there of his find. The parachute is described as follows:

White in color, manufactured by Irving Airchute Co., Inc., serial [REDACTED] canopy assembly [REDACTED] order [REDACTED]

On request of SA CHARLES FARRELL, SA [REDACTED] was directed to Seattle report of SA FARRELL dated 2/16/72, page 312, of which Las Vegas had a copy. SA FARRELL stated that these parachutes described in the report were of the same type as those two that are still missing, manufactured by Pioneer Parachute Company.

After reviewing report, SA [REDACTED] advised that although the parachutes did not seem to be similar to the ones described therein, he would send a nitel next week with more details on their parachute, since the parachute was still in the hands of the Deputy Sheriff.

SUBJECT: NORJAK

Richard Floyd McCoy Jr.

On 4/10/72 I called SAC CALAME at Salt Lake City and advised him that in examining the photograph of the subject of the SALJAK case, it appeared that he had a striking resemblance to the subject of the NORJAK case. I asked him to forward photographs of the subject to us immediately, to Portland and Minneapolis, for display to the witnesses and to establish the whereabouts of McCOY during the pertinent period.

SAC CALAME called me back and advised that in examining the material obtained during their investigation, they have determined that McCOY is a makeup artist. One of the stewardesses in their case described the subject as being swarthy or dark or possibly a Mexican. He had a dark mustache. However, they have located some mustache paste in his effects.

In addition, they have determined that using the name of R. McCOY, which is his name, he made a flight from Salt Lake City to Denver and the same flight from Denver to Los Angeles one week earlier on the same airlines.

The similarities in the SALJAK and NORJAK cases are striking in that in both cases he asked for 2 back packs and 2 chest pack parachutes. In addition, he requested the UAL to give him his own luggage from the plane's cargo department before they departed, and his own parachute and jump suit, helmet and flares, together with 100 ft. of rope in his luggage. SAC CALAME speculates that the subject in the SALJAK case tied the money in his other effects, together, and when he was ready to leave the plane let them descent first, hung onto the rope, just before he landed dropped them and he could make the landing safely. In addition, he dropped 2 parachutes which they have not located. One parachute was located in Nevada and one near where he landed in Utah. The whereabouts of the other chutes are unknown.

164-81-2640

SAC CALAME is causing a check to be made of the UAL flights from Salt Lake City to Portland or Seattle for two weeks prior to 11/24/71. We should immediately commence inquiry to determine if an individual using the name of either DAN COOPER, D. COOPER, R. McCOY or RICHARD McCOY made a flight from Portland to Seattle on NW flight 405 2 weeks prior to 11/24/71.

SUBJECT: NORJAK

On 4/12/72 I called SA HENRY SCHUTZ at the Bureau.

I advised him that the 3 stewardess witnesses in Minneapolis had observed the photograph of RICHARD FLOYD McCOY and advised that he was not identical with the NORJAK subject.

I told him that one witness here had observed certain similarities between the photograph of McCOY and the NORJAK subject; however, this witness, [redacted] said that if McCOY were wearin a wig and had cosmetic makeup, it would change his complexion to a darker shade and there would be more similarity.

b6
b7C

Witness [redacted] advised that after viewing the photograph of McCOY, he would eliminate McCOY as a suspect in NORJAK. He did say there were facial similarities but based on the photograph displayed to him of McCOY, he would be eliminated as a suspect.

b6
b7C

A 3rd witness here was unable to identify McCOY as the subject of NORJAK.

I told Mr. SCHUTZ that in spite of this, in view of the obvious similarity in the two cases, together with the apparent similarities of McCOY's photograph to that of the artist's sketch, I thought we should immediately establish positively his whereabouts during the pertinent period through independent witnesses, and that we would continue the investigation endeavoring to determine if McCOY had made a pre-hijacking flight from Salt Lake City to Portland and return and/or from Portland to Seattle and return.

I advised him later some time today we would send him a teletype concerning this matter.

RE: [REDACTED]

Re: Portland nitel to Seattle, 1/7/72; Seattle
memo of SA [REDACTED] 2/10/72.

On March 14, 1972, [REDACTED]
[REDACTED] Washington, telephone [REDACTED]
was interviewed and provided the following information:

He was at home with relatives during the Thanksgiving Holidays, including November 24, 1971. Guests at his home during this time was an [REDACTED] of Portland, Oregon, and [REDACTED]. These two relatives will verify his presence. [REDACTED] stated emphatically that he knows nothing of any hijackings and he had nothing to do with this particular case. He is a licensed commercial pilot and served in the air force previously. He has jumped from an airplane in a parachute on one occasion while he was in the Air Force. He previously worked for Boeing on the 747, but quit after approximately six months work, to go to work for the [REDACTED] which job he now holds. He is described as follows: White male, 6'4", 170 pounds, 35 years, dob [REDACTED], dark brown hair, brown eyes, medium complexion, medium build, wearing glasses with black rims. He smokes Viceroy cigarettes and previously smoked Salem cigarettes. He has a very prominently hooked nose.

[REDACTED] states that he will attend a lineup before the passengers or crew members of the Northwest Orient Airliner which was hijacked at any time.

Since [REDACTED] does resemble the composite drawing of the hijacker in some facial features, it is suggested that the case agent may wish to set a lead to have some members of the crew or passengers interviewed to ascertain whether the subject has a hooked nose.

[redacted] has previously been interviewed extensively on this case and several possibilities discussed with him. He had no suspects.

It is noted that lead in this airtel is to identify a parachutist who jumps in the water because of a disabling accident and one can assume this chutist is somewhat immobile. It is believed that the hijacker in this case has full use of all of his extremities and witnesses did not tell of any physical disability. It is noted that the person they want us to identify is in a wheel chair.

A man confined to a wheel chair did not hijack the plane in this case.

SUSPECT [REDACTED]

Elim

[REDACTED] Seattle, Washington, was contacted on April 3, 1972, and he advised that while serving in the Marine Corps he worked with a man by the name of [REDACTED] who he feels resembles the artist's sketch of the hijacker. [REDACTED] last saw [REDACTED] in 1962 while serving in the Armed Forces in Japan. [REDACTED] exhibited a picture of the subject that he had in pictorial essay of the Marine Corps [REDACTED] in Japan. [REDACTED] facial features did resemble that of the artist's sketch, however, physical features showed a marked difference. [REDACTED] described [REDACTED] as follows:

Hair
Height
Build
Weight
Age

Sandy blond
5'6-8"
Slight
125

[REDACTED] thinks [REDACTED] originally came from either Oregon, Washington, Montana or Idaho. [REDACTED] relationship with [REDACTED] was that of a co-worker and could not be considered friends. In view of the fact that [REDACTED] description does not fit that of the hijacker, it is felt that continued investigation in this matter is not warranted.

Gentlemen:

This letter is too let you know I am not dead but really alive and just back from the Bahamas, so your silly troopers up there can stop looking for me. That is just how dumb this government is. I like your articles about me but you can stop them now. D. B. Cooper is not real.

I had to do something with the experience Uncle taught me, so here I am, a very rich man. Uncle gave too much of it to world idiots and no work for me. I had to do it to relieve myself of frustration. I want out of the system and saw a way through good ole Unk. Now you know. I am going around the world and they will never find me because I am smarter than the system's lackey cops and lame duck leaders. Now it is Uncle's turn to weep and pay one of it's own some cash for a change. (And please tell the lackey cops D. B. Cooper is not my real name).

Sincerely,

A Rich Man

Memorandum

TO : SAC

DATE: 4/11/72

FROM : SA [REDACTED]

SUBJECT: NORJACK

Re my memo, 3/30/72, regarding call from unidentified man claiming to know/ where hijack ransom money is hidden. It will be recalled the individual also called city editor of the Spokane Chronicle and gave same story.

It appears the call was from a prankster or someone seeking to confuse the issue. On 3/31/72, Spokane Chronicle [REDACTED] advised the writer that the individual came in person to the [REDACTED] office that morning and gave substantially the same story and said he wanted 20% of the loot. He declined to identify himself but [REDACTED] said he looked and acted like an ex-con, [REDACTED] guessed him to be about 30, fairly clean and polite but somewhat arrogant. Said he insisted on dealing with newspaper so he could enforce any promise not to be prosecuted.

Individual told [REDACTED] and [REDACTED] that there are five other people who know where the money is. Amount involved is \$491,000. He said there were three persons who stole a station wagon and the money was in it. They don't know where it came from. They found a paper folder that had held an airplane ticket so they figured it might have come from a highjacking. The individual stated that three guys stole the vehicle that had the money in it. They are "heavy" thieves and have relatives here. He figures if they are picked up, they will think the relatives fingered them and not the man talking.

After leaving the Chronicle office, the man called by phone and said he would send in 12 of the bills to be checked; that he had \$2500 of the money himself. He promised to send the money in right away. [REDACTED] felt that if they got anything in the mail it would be an April Fool letter. Neither of them, nor the Spokane R/A, have heard from the individual since.

Re TIRE TRACKS ON
FORESTRY ROAD.

Re SA THOMAS J. MANNING memo dated 4/9/72.

X On 4/10/72 the writer of this memo contacted [REDACTED] Washington, at which time she provided the following information:

[REDACTED] advised that the day after Thanksgiving, 1971, she and her husband were travelling on a forestry road near [REDACTED] Washington, where they were looking for a Christmas tree to cut, at which time she noticed fresh tire tracks in the snow. [REDACTED] further advised that she did not know if the tire tracks in the snow tied in with the Norjak investigation, but that she thought that she should bring it to the attention of the FBI.

She further provided a Forest Service map, which revealed the location where she had seen the tire tracks in the snow. It was noted that a Forest Service road extends from where [REDACTED] saw the tire tracks to the general area of Merwin Dam, however, it was also noted that the general area where [REDACTED] saw the tire tracks was honeycombed with Forest Service roads, revealing that the vehicle that made the tire tracks could have been driven from any number of locations, including [REDACTED] Washington, which is east of [REDACTED] Washington.

Because the tire tracks in the snow that [REDACTED] observed do not appear to tie directly into the Norjak investigation, no further investigation is being conducted.

'Skyjacker Nearly 'Home Free'

PORTLAND, Ore. (AP) — It has been three years since the skyjacker called Dan Cooper parachuted from a Northwest Airlines jet with \$300,000 in ransom money and wrote himself into the folklore of the Pacific Northwest.

Two more and he'll be home free — if he's alive.

"The federal statute of limitations on that crime is five years," said Sidney Lezak, U.S. attorney in Portland.

These are the events of that Thanksgiving Eve as authorities reconstructed them.

A man who gave his name as Dan Cooper bought a one-way ticket at Portland International Airport to Seattle aboard Northwest Airlines flight 305 which originated in Washington, D.C.

In the air, Cooper handed stewardess Tina

Shackelford a note saying he had a bomb. Following Cooper's orders.

He wanted 10,000 \$20 bills to be delivered to him at Seattle in a laundry sack, along with two sets of parachutes.

Then he ordered the plane to fly south to Reno, Nev., at 200 miles per hour, at 10,000 feet, flaps down. The crew was to stay in the cockpit.

After takeoff from Seattle, a red light flashed in the cockpit, indicating the plane's rear boarding ramp had been unlatched.

Nothing was heard from Cooper for about 20 minutes. At 8:10 p.m., as the plane crossed the Lewis River in southwestern Washington, Capt.

William Scott thought the skyjacker was having trouble with the ramp and called back over the plane's interphone.

There was no answer.

SEARCH

On November 25, 1971, at 3:55 PM, I called SA ROBERT PETERSON at the Bureau. I told him that since the Army would not furnish any helicopters, the Navy at Whidbey Island NAS, Oak Harbor, had agreed to furnish two which could be used if permission was obtained from National Military Command Center in Washington, D. C. I asked him to make this request.

At 6:20 PM, SA PETERSON called and advised that an [redacted] had called and advised that the Army at Fort Lewis would furnish two helicopters; however, they would need "J.P. 4" fuel. I told him this could be arranged.

A [redacted] from Fort Lewis then called at 8:15 and advised two helicopters would be at the Woodland air strip approximately one hour after dawn, weather permitting.

I told him that they should meet SA MANNING at that point who would brief them on the search to be conducted.

accounts of the hijacking, which took place in Seattle on

[REDACTED] 1971. He stated that
he returned to his office and checked his records which
showed that an individual by the name of JAMES D. BOOTH was
the individual he was thinking about who met the descrip-
tion of the hijacker as set out in the newspaper accounts.
He felt that it was particularly peculiar that the hijacker
had used the name D. B. COOPER and felt that the similar
initials in the name JAMES D. BOOTH might be significant.
He advised that Mr. BOOTH took [REDACTED]
during the period 7/16-30/71. He advised Mr. BOOTH failed to
pass the drivers test on 7-30-71 and was to return a week later
to take another exam but did not appear. He stated that [REDACTED]
[REDACTED] had had conversations with
Mr. BOOTH on six or seven occasions and that BOOTH had men-
tioned that he was a Marine Engineer and had worked his way up in
the Merchant Marines to that position. He stated his records
reflect that BOOTH was born 12-1-27, was 6' tall, 180 pounds,
straight black hair and a light complexion. He advised
that Mr. BOOTH was unmarried, appeared to be younger than his
age and gave an address of Box 489, Seattle, telephone
MA. 2-4851, which is the Moore Hotel, Second and Virginia.
BOOTH also mentioned that he had been shipwrecked at one time
and [REDACTED] felt that he was a very mature and stable in-

On 11-26-71, CWO W. A. YOAST, District Court Guard Office, Seattle, advised that JAMES DWIGHT BOOTH, born on 12-1-27, Duluth, Minnesota, was issued Coast Guard Z No. 639126 in San Francisco, California in 1949 and had applied for a duplicate in Seattle on 4-15-57. At this time, BOOTH had given an address of Box 1116 Cut Bank, Montana. BOOTH's coast guard papers described him as qualified as a Fireman, Water tender, Oiler, Mess man, General Engineer and Deck Engineer. In June, 1964, BOOTH was issued a Chief Engineers license in San Francisco and he renewed this license in Seattle in June, 1969. This license entitled BOOTH to the rating of Chief Engineer on steam vessels. BOOTH had Social Security Account Number 473-22-5691.

Attached hereto is a xerox copy of a form used by BOOTH when applying for his duplicate Z Number on 4-17-57 which shows samples of BOOTH's printing and his handwritten signature. CWO YOAST advised they were not in possession of a photograph of BOOTH.

IT WOULD BE NECESSARY TO HAVE SUCH AN AIRCRAFT MANNEED BY PERSONS CAPABLE OF OPERATING THE REQUIRED CAMERA EQUIPMENT. SUCH PERSONNEL COULD POSSIBLY BE SUPPLIED BY STRATEGIC AIR COMMAND (SAC); UNITED STATES AIR FORCE INTELLIGENCE, OR AEROSPACE PHOTOGRAPHIC AND GEODETIC SERVICE, TOPEKA, KANSAS. NASA HAS NO SUCH AIRCRAFT, BUT ONE COULD BE RENTED OR COULD POSSIBLY BE OBTAINED FROM ONE OF THE AFOREMENTIONED AGENCIES. IT IS NOT KNOWN WHETHER ANY OF THESE AGENCIES CURRENTLY HAVE APPROPRIATE THERMAL IR SCANNERS WHICH WOULD BE NECESSARY FOR DETECTING BURIED OBJECTS THROUGH EARTH SCAPS, THAT IS , DISTURB SOIL. HOWEVER, IT IS BELIEVED THAT THERMAL IR SCANNERS WOULD HAVE PRACTICALLY NO VALUE IN ACCOMPLISHING THE OBJECTIVE, PARTICULARLY IF THE AREA IN QUESTION IS SNOW COVERED.

SUPPORT. THIS WOULD ENTAIL FLYING U-TWO AIRCRAFT OVER THE AREA AT THIRTY OR FORTY THOUSAND FEET AND WOULD YIELD A RESOLUTION OF TWO OR THREE. IN OTHER WORDS, OBJECTS ON THE GROUND WOULD HAVE TO MEASURE A MINIMUM OF TWO OR THREE FEET IN SIZE TO BE DETECTED. MR. KRUUEGER POINTED OUT THAT THIS PROCESS WOULD PROBABLY NEVER LOCATE A FOLDED OR COLLAPSED PARACHUTE, ONLY ONE WHICH WAS SPREAD OUT IN A TREE OR ON THE GROUND. THE NECESSARY AIRCRAFT FOR THIS ALTERNATIVE WOULD HAVE TO BE OBTAINED THROUGH THE SAC OR UNITED STATES AIR FORCE U-TWO SQUADRON AT TUCSON, ARIZONA. NASA COULD ALSO PROVIDE SUCH AIRCRAFT, BUT NOT UNTIL THE WEEK OF DECEMBER THIRTEEN NEXT AT THE EARLIEST.

MR. KRUUEGER EXPRESSED HIS DESIRE TO AID THE BUREAU BY INITIATING CONTACTS WITH THE NECESSARY MILITARY OFFICIALS IN THE EVENT EITHER OF THE ABOVE ALTERNATIVES SHOULD BE DESIRED BY THE BUREAU. HE INDICATED THAT IF REQUESTED, MILITARY AIRCRAFT COULD POSSIBLY BE DEPLOYED TO THE AREA WITHIN TWO OR THREE DAYS.

BOTH MR. KRUEGER AND MR. NOLAN EMPHASIZED THAT OBTAINING IR PHOTOGRAPHS OF THE AREA CAPABLE OF YIELDING A PARACHUTE WAS ANALOGOUS TO QUOTE FINDING A NEEDLE IN A VERY LARGE HAYSTACK UNQUOTE. THEY NOTED THAT AERIAL IR PHOTOGRAPHY WORK WAS ONLY A SINGLE ELEMENT IN ACCOMPLISHING THE OBJECTIVE AND THAT THE REAL TASK INVOLVED THE ANALYSIS AND INTERPRETATION OF THE RESULTANT IMAGERY BY QUALIFIED SPECIALISTS. IT WAS ESTIMATED THAT TO ANALYZE THE AREA INVOLVED IN CAPTIONED MATTER WOULD REQUIRE AT LEAST A DOZEN MEN WORKING FULL TIME FOR AT LEAST TWO OR THREE WEEKS. SUCH ANALYSIS COULD CONCEIVABLY COST THE BUREAU AN UNKNOWN AMOUNT, BUT THE AIRCRAFT REQUIRED WOULD PROBABLY BE PROVIDED FREE OF COST.

It is physically impossible to make a take-off

On the 727, the rear stairs cannot be lowered from the pilot's compartment. They can be lowered only from the passenger compartment in the rear of the plane or externally if the plane is on the ground.

[redacted] advised that once the operation of the rear stairs has started there is no way to stop them until they have extended to the full position. On the ground when the rear stairs are extended, the weight of the stairs actually carries them to the full open position. If the stairs are extended in flight, the pressure of the wind keeps them from opening to the full position.

b6
b7C

On several occasions [redacted]
[redacted] extended the rear stairs while in flight. This was done at speeds of approximately 150 knots. Opening the rear stairs in flight at speeds at 150 to 170 knots would not suck any items from the passenger cabin. There would be a slight change in pressurization but this would not remove any papers or cushions from the passenger cabin.
